JAN 25 2010

MEMORANDUM FOR ALL U.S. ARMY, FORT GORDON GARRISON PERSONNEL

SUBJECT: Garrison Commander's Policy Memorandum No. 33- Composite Risk Management  
Signature Policy

1. References.

- a. PL 91-596, Occupational Safety and Health Act of 1970.
- b. 29 CFR Part 1960, Basic Program Elements for Federal Employee Occupational Safety and Health Programs and Related Matters.
- c. AR 385-10, Army Safety Program.

2. Purpose. To establish a policy that supports and implements references 1a - c.

3. Applicability. This policy applies to all personnel assigned to the Fort Gordon Garrison.

4. Background. Composite Risk Management (CRM) is the primary technique to be used for accident prevention within the Army. CRM is an analytical technique that is used to systematically assess, eliminate, or reduce the risk associated with any operation, action, or activity. Risk decision authority is based upon the residual risk of an activity after application of control measures.

5. Responsibilities. Approving authority:

- a. Extremely high risk - IMCOM, CG. US Army Garrison-Fort Gordon units planning an operation with a residual risk level of Extremely High will forward their request through the Garrison Commander to HQ IMCOM, CG.
- b. High risk - Colonel or equivalent for all Fort Gordon Garrison units.
- c. Medium risk - Lieutenant Colonel or equivalent, and GS-13 and above.
- d. Low risk - Any commissioned officer, E-8 and above, and GS-11 and above.

6. The proponent for this policy letter is the Senior Safety Director, Installation Safety Office, 706-791-3227.

  
GLENN A. KENNEDY, II  
COL, SC  
Commanding
